20i / StackCP Requirements

20i / StackCP · https://wpemailmanager.com/docs/20i-stackcp-requirements/

For WP Email Manager to integrate with 20i / StackCP, the following conditions must be met:

1. You have a reseller account. API access is restricted to reseller accounts only.
2. You have generated an access token. Learn more here.

NOTE:

20i / StackCP does not support email quotas.
