How to get a Modoboa API Key

Modoboa · https://wpemailmanager.com/docs/how-to-get-a-modoboa-api-key/

To get a valid token / api key, log-in to your Modoboa instance with a super administrator account, go to *Settings* > *API* and activate the API access. Press the Update button, wait until the page is reloaded then the token will be displayed.
