How to Set Up Email Account Limitations per Site in WP Ultimo Version 1.X

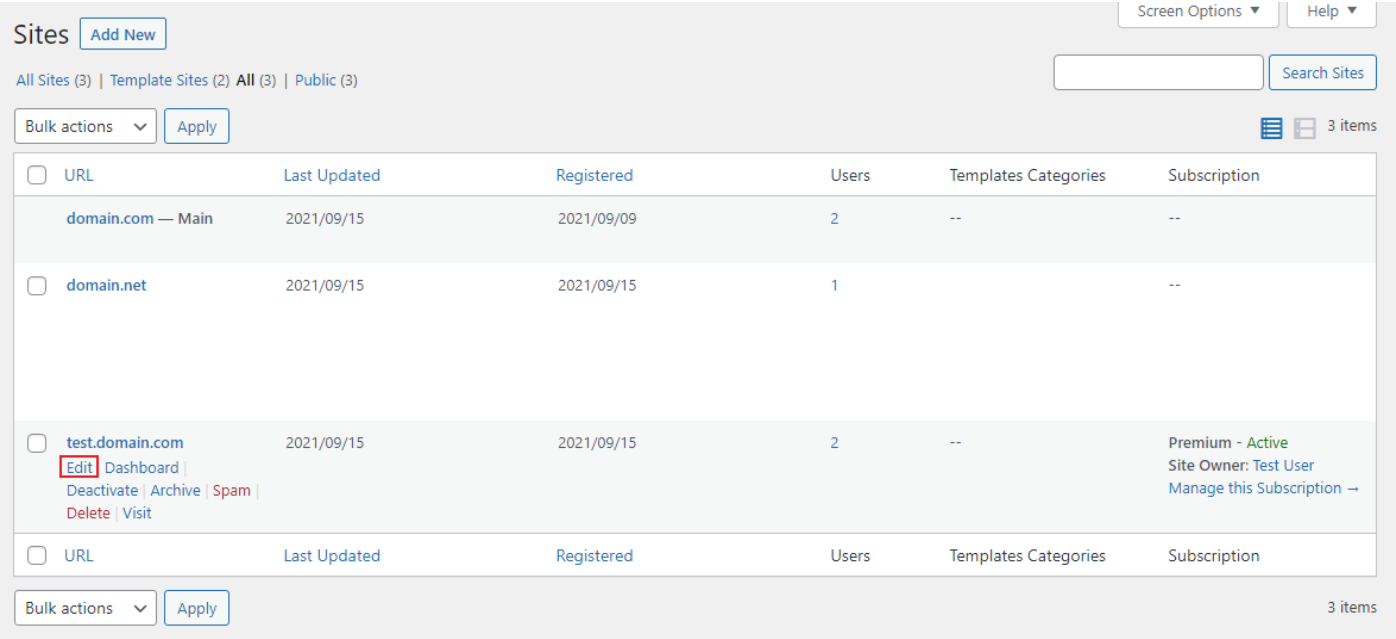

Version 1.x · https://wpemailmanager.com/docs/how-to-set-up-email-account-limitations-per-site-in-wp-ultimo-version-1-x/

If you are using WP Ultimo version 1.x, you can override the network email account limitations that apply to all plans for specific sites. To do so,:

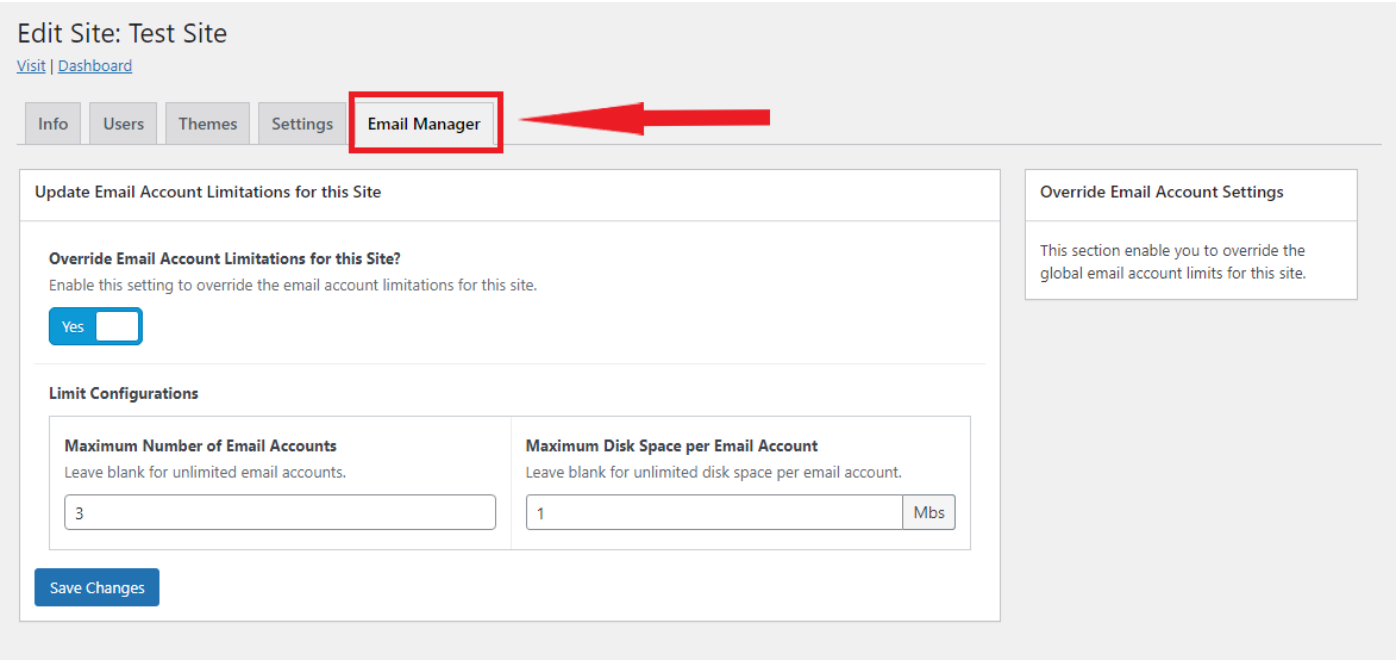

1. Go to the sites page (Network menu > Sites).

2. Edit the site of which you would like to override email account limitations.

3. Proceed to the Email Manager tab and configure the settings.

Known Issues

1. When you click on the Email Manager tab, the Aliases tab doesn't display.
