I am unable to connect to my Froxlor server

Troubleshooting · https://wpemailmanager.com/docs/i-am-unable-to-connect-to-my-froxlor-server/

Depending on your Froxlor installation, the installation's API endpoint may differ. As you setup WP Email Manager, try any of the following as the hostname:

1. youripaddress
2. youripaddress/froxlor
3. yourhostname.tld
4. yourhostname.tld/froxlor
