I am Unable to Connect to my SPanel Server

Troubleshooting · https://wpemailmanager.com/docs/i-am-unable-to-connect-to-my-spanel-server/

Depending on your SPanel installation, the installation's API endpoint may differ. As you setup WP Email Manager, try any of the following as the hostname:

1. youripaddress/spanel
2. youripaddress/hostpanel
3. yourhostname.tld/spanel
4. yourhostname.tld/hostpanel
